

FOREWORD

With the world growing at a pace hard to match, the increasing need for space is turning out to be an area of concern. With desperate need for land for agricultural, industrial and most importantly urban needs to contain cities and their growing population, the effects of loss of vegetation is starting to be visible. Over the last century the forest cover around the globe has been greatly compromised, leaving the green cover down to an all-time low of about 30 per cent. The need of conserving the precious green wealth has never been felt more as in the present times.

The scheme of Decentralized People's Nursery launched by department of forests, West Bengal is one of the small steps for the cause of the conservation of the greens in our State and such small steps only will lead to big results. The implementation of about **1066** Decentralized Peoples' Nurseries in the state shows how much Forest Department believes in taking along the common public towards the cause of Conservation. It's a collective effort which will transfer technology of raising seedlings to the common mass of rural areas and assist in achieving the target of greening one third of our country.

We are very happy to inform that the farmers have raised nearly **one crore six lakh** seedlings of different varieties like sisso, siris, gamar, teak, chikrasi, lattor, mahogany and various fruit species. These seedlings will be available for distribution and sale to the local people of the state.

I am glad to convey my earnest wishes on the occasion of Ban-Mahotsab and publication of the "Decentralised People's Nursery Directory". I thank all the officers and staff for their efforts and contributions for making this scheme successful on date.

Sector-III, Saltlake City, Kolkata- 106**

No. 560- For

Date: 04/03/2016

NOTIFICATION

Whereas decentralized People's Nurseries and Kishan Nurseries schemes were introduced in late 1980's and 1990's all over the country with an idea of transferring technology of raising seedlings to the rural villagers so that the Villagers / Farmers can take part in fulfilling the target of planting 10-15 billion plants per year nationally for achieving the target of greening 1/3rd of the geographical area of the country; and whereas initially the scheme of decentralized People's nurseries / Kishan nurseries was funded by Central Govt.; and whereas later on the same scheme was adopted by the state. However during the preceding few years because of lack of instructions and guidelines, the decentralized Peoples' nurseries scheme lost sight of its aims and was converted into a scheme for creating field nurseries for distributing the seedlings to the villagers now it has been realized that there is an immediate need of issuing clear and transparent guidelines for implementing the old scheme of decentralized People's nursery all over the state by reviving its cherished aims of emboldening the farmers.

Therefore, after careful consideration the State Govt., in the Department of Forests is issuing such operation guidelines for implementation of Decentralized Peoples' Nurseries as to:

Objectives:

1. Identify the local needs for specific tree species;
2. Produce superior quality plants, required by the local community;
3. Supply of healthy plants in the vicinity of 2-3 km from plantation sites;
4. Create employment opportunities for women, landless and small holders;
5. Promote Agroforestry;
6. Bridge the gap for fuel and fodder needs among the local populace;
7. Ensure Flexibility in schemes for planting trees;
8. Strength/Build Institutional Mechanism;
9. Assure supply of Quality Planting Material for common public.

➤ **Selection of Beneficiaries:** Under the scheme, the beneficiaries will be selected from the local farmers/members of the JFMCs and Aranya Bandhus. The beneficiaries will be identified by the local Beat Officers and should have recommendation of concerned Range officers and finally the approval by the DFOs. While selecting beneficiaries, the following guidelines must be fulfilled :-

- The farmer should have at least 25-30 sq mtr. (300-350 sq feet) area available where the nurseries can be raised.
- There should be a source of water supply for watering seedlings.
- The beneficiary should agree to provide the labour from his end which will be reimbursed by the govt.
- Preference should be given to the beneficiaries, who are committed and have agreed to raise the seedlings and are in the possession of the required land and water supply.

After the selection of the Beneficiary List, the same may be recommended by the local Panchayet Samity/ Zilla Parisad.

The above Beneficiary List should be kept for the record and a copy of the same should be sent to the local Panchayet Samity/ Zilla Parisad offices.

➤ **Land and Plant Species:** Under the scheme, the nurseries will be raised in private land as stated above and the species selection should be done by the forest officer in consultation with the target farmers utilizing the seedling so that there should be a mixture of forestry and fruit species as per the local requirements.

➤ **Period of Decentralized Peoples' Nurseries:** Under the scheme, the Decentralized People's Nurseries will be started during the month of Dec-March and will continue in the next financial year till September or till the entire stock of the nurseries is exhausted, meaning thereby the nurseries will run into 2 consecutive financial years.

- 1st year for Advance Work
- 2nd year for Creation Work

➤ **Distribution of seedlings:** The seedlings raised under the scheme will be utilized for free distribution as well as distribution at subsidized rate to the local villagers/schools/hospitals/Govt. Offices/Clubs etc., during 'Bano Mahotsav' as well as during the entire planting time from the nursery sites itself. The beneficiaries will be free to sell 50% of the seedlings from his end at a rate prevailing at that point of time in the state. The balance 50% of seedlings which will be sold / distributed by the Forest Department, as per the rates decided during the year, and the revenue so collected will be deposited as a revenue in the Government exchequer.

The scheme Decentralized Peoples' Nurseries consists of two components

- 1) Labour Components and
- 2) Material Component.

A. Labour Components under Advance Work : Under the estimate for the advance work the labour component has been fixed as 14.5 man-days for raising 2000 number of seedlings. The labour payment shall be made to the Farmers/Joint Forest Management Committee members and Aranya Bandhus, in the form of Cash/Cheque at the prevailing rate of the Govt. of West Bengal issued by the Labour Department.

- B. Material Component under Advance Work : The materials components, for the advance work, will be in the form of purchase of watering can/bucket, price of the seeds and price of the insecticides etc., at the current market rates which shall be produced by the local Range Officer and supplied to the beneficiaries as per the approved estimate for the concerning financial year.
- C. Labour Component under Creation Work : Creation part consists only of labour components which is 16 man-days for raising 2000 numbers of seedlings.
- **Technical Support by the Forest Department:** As the aim of the scheme is to transfer the technology to the villagers, the Forest Department will ensure and make the farmers aware about the following points :-
- Collection of quality seeds from healthy source;
 - Helping in laying out the nursery bed with proper slope to avoid water logging;
 - Making the farmers aware about regular watering, use of pesticides, use of fertilizers and proper potting mixture, use of proper organic fertilizer and good earth and sand; and,
 - Making the farmers aware about the picking out, time of sowing of seedlings for different species and also culling and shifting operations of the seedlings.

No. 560/1(3)-For/FR/O/D/8M-69/2015,

Sd/-
Principal Secretary to the Govt. of West Bengal
Department of Forests
