

## **Afforestation**

One of the objectives of National Forest Policy is to increase the National Forest cover to 33% of the geographical area as per the National Forest Policy, 1988. The main area of activity is creation, maintenance and preservation of plantations on both degraded forest land, non-forest Government land and private lands through the following schemes.

### **a. Economic Plantation:**

This scheme is meant for the plains of Dooars in North Bengal and comprise of plantations of timber producing species.

### **b. Plantation of Quick Growing Species:**

Under this scheme mainly industrial plantations over laterite zone are created along with maintenance of older plantations.

### **c. Coastal Shelterbelt Plantation:**

Mainly plantations in Coastal areas are taken up under this program with the objective of mitigating the fury of cyclones along the coastal areas. This program will be taken up mainly in Midnapur district and some areas of 24 Parganas South.

### **d. Mangrove Treatment:**

The scheme aims at rehabilitation of mangrove forests in Sunderban areas by taking afforestation in saline blank patches, newly accreted areas on account of deltaic accrual of lands, sandy blanks etc.

### **e. Forestry Treatment:**

In view of a very wide range of Agro-ecological conditions prevailing in this state, altogether 12 treatment models have been adopted, which are grouped in two broad **categories, namely (a) Rehabilitation of degraded forest lands which constitutes the largest component of the treatment models involving JFM with FPC's including regeneration of degraded Sal forests in SW Bengal from viable root stocks and partly in North Bengal for similar areas. Enrichment planting is also undertaken in blank pockets within these areas and (b) Forestry development on Non Forest Lands the principal focus of which is on the Farm Forestry, which is directed towards small and marginal Farmers. This also includes promotion of Agro-Forestry systems.**

f. Strip Plantation/Farm Forestry: This scheme is meant for a part of the area that has been earmarked for strip plantation

along national highways, canal embankments, roadside plantations etc

**Creation Work from 2012-13 to 2017-18**
